

## Practice Expeditions - drop off and pick up.

Dear Parent/Guardian

All practice expedition routes start and finish at the path junctions highlighted below.

For safety, ease and convenience we politely ask that all participants are dropped off and are collected from the car park as marked below. This isn't marked on all maps but is obvious from both road directions. Staff will be able to guide on the day if unsure.

There should be ample off road space in which to drop off and collect participants.

All walking routes start here, however please do not stop on this road and bend, but use the car park as shown.
