

Reading exam results GCSE and GCE

All Specifications are now linear

- The St George's slip shows results for all qualifications sat at St George's and the overall result for each qualification
- The columns show the following information:
 - Grd1 = The overall grade for the subject, shown as a number
 - Points = The value of a qualification when calculating performance tables etc. Each qualification at a particular grade has a fixed value, e.g. a 9 at GCSE level is worth 9 points
- Only the overall subject grade appears on this slip.
- We are also enclosing results slips from the individual exam boards, as these will show the marks for each subject and the units that make up that subject. Grade boundaries can be found on the respective exam board websites, making it possible to work out how far off the next grade up or down each result was. Website addresses are available on the school website (Menu > School life > Exams > Exam Results Day Documents).
- If there are any other points not covered here, please do consult us in the Exams Office – we are here to help
